

GINGERBREAD

LANDO®

GINGER

A strong and almost theatrical indication distinguishes the new Gingerbread project by Paola Navone. The traditional lines are reread by way of the constant search for unusual couplings and unions: of forms, materials and of styles.

Classical stylistic references remodel both spaces and presences. Tradition is once again moulded and shaped with generous proportions.

The new furnishings are reappropriated by the third dimension, taking on fresh intensities and forms that have baroque volumes and ancestral profiles.

The effect achieved is one of a domestic stage-setting, heart-warming and spectacular.

The structures of the new Gingerbread have been created using solid wood in its natural colour or else in white or grey.

Staves in wrought iron which are then chromed have been used to produce the supports of the tables and bookcases, with the chromed iron both 'spiritualizing' and lightening the structure, almost as if the wood floats. The collection is made up of chests, high and low kitchen cabinets, beds, soft and seductive chairs, tables and coffee tables.

The volumes are modelled by way of surfaces that lack décor: the result is a strange and surprising equilibrium, one found outside of time, for an unexpected and magical domestic landscape.

GINGERBREAD

design di Paola Navone

Un segno forte, quasi teatrale distingue il nuovo progetto Gingerbread di Paola Navone.

Le linee tradizionali sono rilette attraverso la ricerca costante di abbinamenti inconsueti. Di forme, di materiali e di stili.

Riferimenti stilistici classici rimodellano spazi e presenze, la tradizione è riplasmata con proporzioni generose.

I nuovi arredi si riappropriano della terza dimensione assumendo profondità nuove e forme con volumi barocchi e sagome ancestrali.

L'effetto ottenuto è una scenografia domestica, calda e spettacolare.

Le strutture del nuovo Gingerbread sono realizzate in legno massello grezzo, nei colori naturali, bianco o grigio.

Bacchette di ferro forgiato e in seguito cromato, sono utilizzate per realizzare i supporti dei tavoli e delle librerie.

Il ferro cromato smaterializza e alleggerisce la struttura. Il legno quasi galleggia.

La collezione è composta da madie, credenze alte e basse, letti, sedute morbide e accoglienti, tavoli e tavolini.

I volumi sono modellati attraverso superfici prive di decoro. Il risultato è un equilibrio strano e sorprendente, fuori dal tempo.

Per un paesaggio domestico inatteso e magico.
